FRUIT TREE SEEDLINGS—American Grown

APPLE SEEDLINGS: The supply is much below normal this season, and owing to the improved apple tree market, we look for a stronger demand with increase in prices.

The advance in apple trees is easily explained by the small plants of apple which have been made for several years past. The plant will be small this year even if every seedling grown is planted, because the crop is so short. Reports from all over the country indicate that they demand for apple trees is increasing. Farmers are prosperous and are replanting their old orchards. Orchardists are getting fine prices for their fruit and this stimulates planting.

Therefore considering everything the prospects for apple trees look very bright. Do not make the mistake of waiting until too late. Plant now before the top of the market is reached.

Large retail firms should consider this point carefully; it will not be so easy for them to pick up shortages as it has been, and in order to protect their own sales, it might be necessary to increase their plant.

On account of the lack of seed, apple seedlings promise to be scarce next year. We suggest that you line out some No. 3. or 4 seedlings to be budded the second summer.

NOTE: Prices subject to change without notice.

NOTE—On orders of less than one thousand we must ask an advance of 33 1-3 per cent over the thousand rate.

ROOT GRAFTS

There are just two reasons why you should make a plant of apple this coming spring; the demand for apple trees is increasing and the supply is decreasing.

Unless you have experienced help, you will find it cheaper and better to have us do your grafting. We have a large force of expert men, who devote their time during the winter months exclusively to this department. The grafting cellars are located close by our office and no part of our business receives more careful personal attention.

We are prepared to put up grafts of any style or length wanted, and make the price accordingly. We use the best of materials; orchard scions are used extensively and selected hardy seedlings grown by us from the best crab seed that we can procure.

While we are prepared to do machine wrapping, yet for our own planting we prefer the hand work which seems to give very satisfactory results. Each order is grafted by itself and packed separately until shipped. They are re-packed and inspected several times during the winter so they are in the best of condition at shipping time.

It is very important that orders be placed early. We can give them closer attention and supply a larger list of varieties than later in the season. Our grafting season begins about the first of January and continues throughout the winter.

As our grafts are put up in bunches of one hundred, do not order a less amount of any one variety. We will be glad to mail samples upon request.

If ordered alone varieties marked with (*) in the list of varieties will cost one dollar per thousand higher than quoted in this list.

APPLE AND CRAB PIECE ROOT GRAFTS

Piece root grafts are made by using about six inches of scion and three and one-half inches of root. They are tongued together and securely wrapped at the union, making the entire graft about eight and one-half inches long. This is the style of graft most generally used because it makes a well-rooted tree, and if properly planted many of the scions will throw out roots.

	Per 100	Per 1000
25,000 and up.....	\$5.00
5,000 to 25,000.....	5.50
1,000 to 5,000.....	\$1.00	6.00

APPLE AND CRAB WHOLE ROOT GRAFTS

This style of graft is made by using about six inches of scion and the entire seedling making union at the collar and wrapping with waxed thread which holds it firmly until calloused. Many nurserymen prefer to plant this kind of graft, claiming that they get a larger growth owing to the well formed root system.

5,000 and up.....	\$ 9.00
1,000 to 5,000.....	\$1.00	10.00

PEAR GRAFTS

SURPLUS SCIONS

We do not have our scions all graded as yet, and we can not now give a list of surplus. Send us your shortage list and we will gladly quote all we can supply.

LINING OUT STOCK

We have a limited amount of ornamental stock for planting out in the nursery row. We suggest that you send in your list AT ONCE for prices.

NURSERYMEN'S SUPPLIES

We always carry on hand a full stock of supplies such as Grafting Thread (waxed and unwaxed), Twines, Knives, Labels, Burlap, Box Straps, Paper, Moss Shingles, tow, Spades, Stock Books, Delivery Cash Books, Collating Books, Order Books, etc. They are listed and priced in our Fall 1917 Wholesale Trade List.
